# **Downhole Tools cable protector**

**Oileader Petroleum Equipment Co., Ltd**  
**China Tianjin**

# CORPORATION & PRODUCT PROFILE

Oileader is a professional petroleum equipment corporation, specializing in developing, designing, manufacturing oil and gas industry accessories.

Oileader has annual production capacity of 10 thousands of casting cable protectors and 10 thousands of punching cable protectors. We possess advanced precision casting production line and laboratory testing instruments, such as punching, drilling, milling and other processing equipments. Experienced professional engineers and technical personnel ensure first-class design development and high quality of products.

Oileader provides a wide range of oilfield cable and control line protector products, which are widely used in coupling protector, mid joint protector, and safety valve collar protection in the oil and gas industry. The specification contains 2-3/8 ~ 5-1/2" tubing, dynamical flat 1#~6#, round 1#~6#, hydraulic pressure and single lines 11×11, 3/4", 3/8", 1/4", 3/16" and any models. Meanwhile, we could develop and produce according to customer's need, and ensure perfect design, prompt delivery and reliable quality of products,

Oileader has obtained ISO9001-2008 International Quality Management System Certificate. Finished products are tested and inspected by the third party to guarantee standards and quality.

Our focus is on the pursuit of innovation in the application of down hole cable's protection. Our philosophy is to provide quality cost-effective products, unparalleled service and to show professional attitude to enhance performance.

## Casting cable protector series

Casting cable protectors are mainly made of carbon steel or stainless steel, those are widely applied to tubing hoop, safety valve protection, ESP, cable and line's protection. Casting cable protector adopts investment casting technical and special toughness processing to enhance strength and reliability. Being unique design of smooth streamline, it prevents damage during dynamic motion in tubing production and ensures continuity and accuracy in the gauges complication. Cable protector can be rapidly and reliably installed with no separate or loose parts or pins, prevents cross threading, and reduces the potential hang up risk. Meanwhile, it demounts easily and allows reinstallation. We totally could design and manufacture casting cable protector according to your special request.

## Casting cable protector Features:

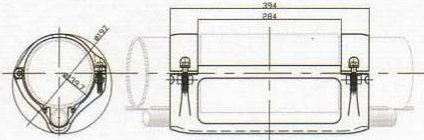

1. All-cast construction; ensures strength and reliability
2. One-piece design with no separate parts or pins
3. Smooth streamline design; reduces the potential hang up risk
4. Optimized cable slot; considerate layout
5. Speedy and reliable installation; less than 30 seconds using an air gun
6. Demount easily; allow reinstallation

### A-001 A-C5-1/2" 1R

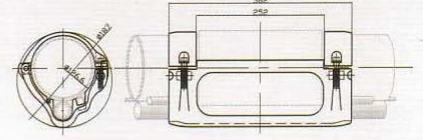

Cross coupling cable protector  
Casting carbon steel  
5-1/2" VAM Coupling  
1# Round Cable  
2x1/4" control line

### A-002 A-C5" 2R

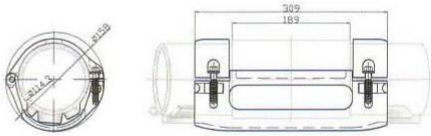

Cross coupling cable protector  
Casting carbon steel  
5-" VAM Coupling  
2# Round Cable  
1/4"+11x11 control line

### A-003 A-C4-1/2" F+

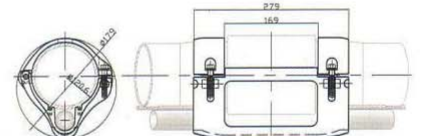

Cross coupling cable protector  
Casting carbon steel  
4-1/2" VAM TOP Coupling  
3 Root Flat Cable control line

### A-004 A-C4-1/2" 2R

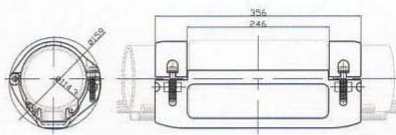

Cross coupling cable protector  
Casting carbon steel  
4-1/2" EUE Coupling  
2# Round Cable  
2x1/4" control line

### A-005 A-C4-1/2" 4F

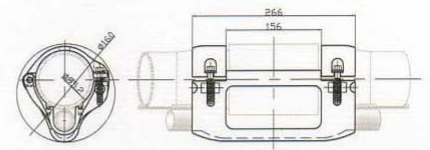

Cross coupling cable protector  
Casting carbon steel  
4-1/2" FOX Coupling  
4# Flat Cable  
2x1/4" + 3/8" control line

### A-006 A-C3-1/2" 2R

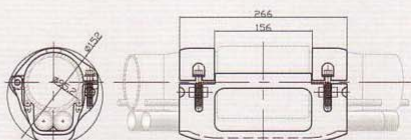

Casting carbon steel cable protector  
3-1/2" EUE Tubing Coupling  
2# Round Cable  
2x1/4" Pipeline

### A-007 A-C3-1/2" 4R+

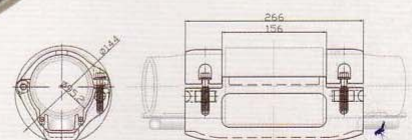

Cross coupling cable protector  
Casting carbon steel  
3-1/2" EUE Coupling  
4#x2 Round Cable  
2x1/4" control line

### A-008 A-C3-1/2" 2F

Cross coupling cable protector  
Casting carbon steel  
3-1/2" EUE Tubing Coupling  
2# Flat Cable  
2x1/4" Pipeline

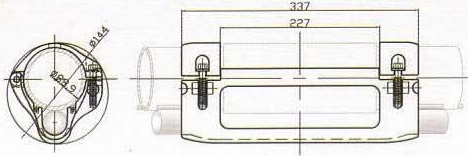

### A-009 A-C3-1/2" 2R

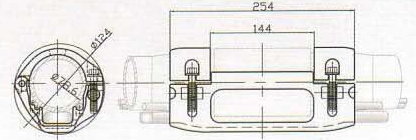

Cross coupling cable protector  
Casting carbon steel  
3-1/2" VAM Coupling  
2# Round Cable  
2x1/4" control line

### A-010 A-C2-7/8" 4F

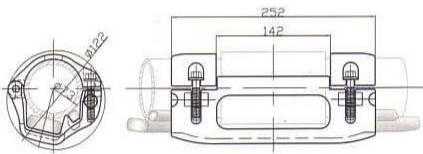

Cross coupling cable protector  
Casting carbon steel  
2-7/8" EUE Coupling  
4# Flat Cable  
2x1/4" + 3/8" control line

### A-011 A-C2-7/8" 2F

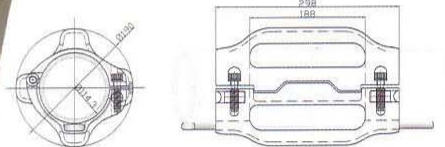

Cross coupling cable protector  
Casting carbon steel  
2-7/8" NU Coupling  
2# Flat Cable  
11x11 control line

### A-012 A-CC4-1/2" 4F

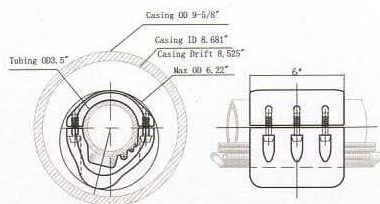

Centralizer  
Cross coupling cable protector  
Casting carbon steel  
4-1/2" LTC Coupling  
4# Flat Cable

### A-013 A-V3-1/2" 2F

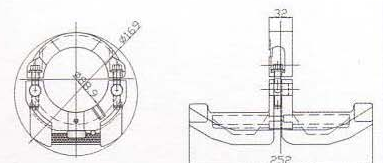

Valve cable protector  
Casting carbon steel  
3-1/2" Safety-TRSSV  
2# Flat Cable  
2x1/4" + 3/8" control line

### A-014 A-D3-1/2" 4F

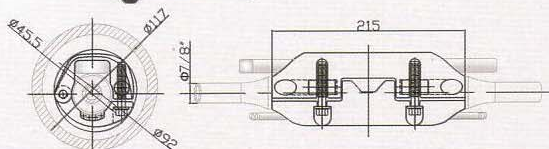

MLE cable protector  
Casting carbon steel  
3-1/2"  
4# Flat Cable  
2x1/4" + 3/8" Pipeline

### A-015 A-S1" 4F

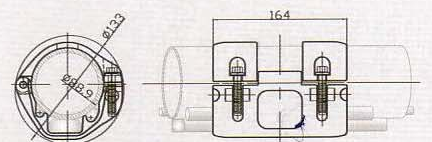

Sucker rod cable protector  
Casting carbon steel  
1" Sucker rod  
4# Flat Cable  
4x1/4" control line

### A-016 A-P3-1/2" 4F

Tubing mid-joint cable protector  
Casting carbon steel  
3-1/2" Tubing  
4# Flat Cable  
2x1/4" + 3/8" Pipeline

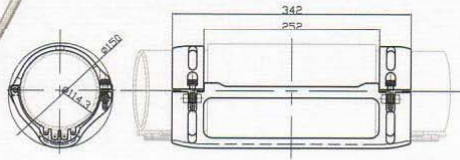

### B-001 B-C4-1/2" R4

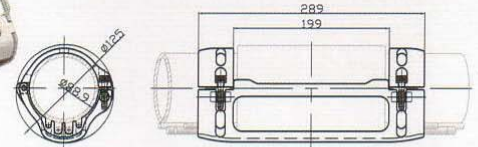

Cross coupling Control line protector  
Casting stainless steel  
4-1/2" Hunting Coupling  
2x1/4" + 2x3/8" Pipeline

### B-002 B-C3-1/2" R4

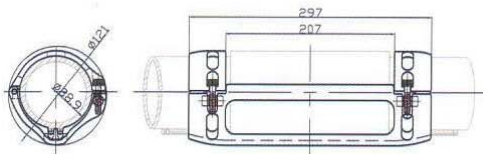

Cross coupling Control line protector  
Casting stainless steel  
3-1/2" Hunting Coupling  
2x1/4" + 2x3/8" Pipeline

### B-003 B-C3-1/2" R2

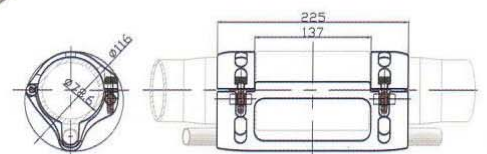

Cross coupling Control line protector  
Casting stainless steel  
3-1/2" VAM Coupling  
2x1/4" Pipeline

### B-004 B-C2-7/8" R1

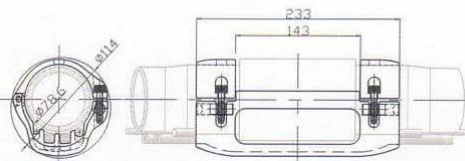

Cross coupling Control line protector  
Casting stainless steel  
2-7/8" EUE Coupling  
3/4" Derivative Control

### B-005 B-C2-7/8" R+F

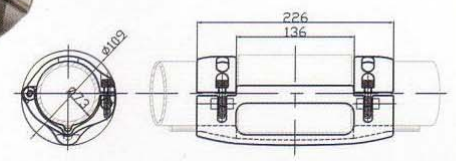

Cross coupling Control line protector  
Casting carbon steel  
2-7/8" EUE Coupling  
2x1/4" + 2x11x11 Pipeline

### B-006 B-C2-7/8" R1

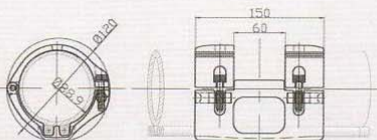

Cross coupling Control line protector  
Casting carbon steel  
2-7/8" NU Coupling  
1/4" Pipeline

### B-007 B-C3-1/2" F2

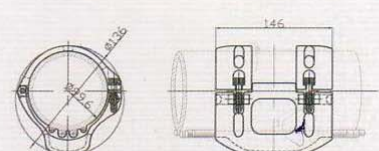

Pipeline Control line protector  
Punching  
3-1/2"  
2x11x11 Pipeline

### B-008 B-P3.922" R4

Pipeline Control line protector  
Cast Stainless steel  
3.922" Tubing  
2x1/4" + 2x3/8" Pipeline

# Forged protector series

Punching bolted cable protector is fixed and tightened through special bolt. They are applied to all kinds of cable, signal and data control lines in tubing and connection' s protection. Sound design and easy installation is one of its advantages. Stainless Steel, carbon steel and other materials can all be available for your special order.

## C-001 C-C4-1/2" 2R

Cross coupling Control line protector  
Punching  
2# Round Cable  
1x1/4" control line

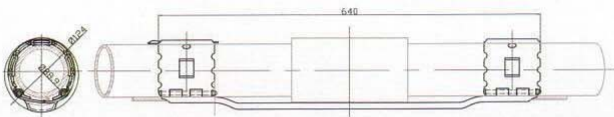

## C-002 C-C4-1/2" R1

Cross coupling Control line protector  
Punching  
4-1/2" Coupling  
1x1/4" control line

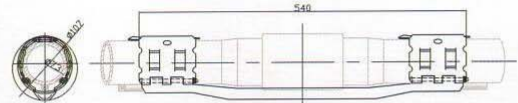

## C-003 C-C3-1/2" R1

Cross coupling Control line protector  
Punching  
3-1/2" Coupling  
1x1/4" control line

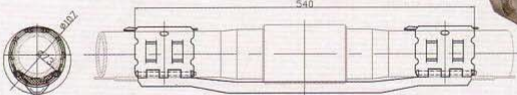

## C-004 C-C2-7/8" F1

Cross coupling Control line protector  
Punching  
2-7/8" Coupling  
11x11 control line

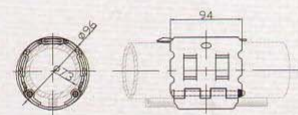

## C-005 C-C2-7/8" R2

Cross coupling Control line protector  
Punching  
2-7/8" Coupling  
1x1/8+1x1/4  
control line

## C-006 C-P3-1/2" F1

Pipeline Control line protector  
Punching  
3-1/2" Coupling  
11x11 control line

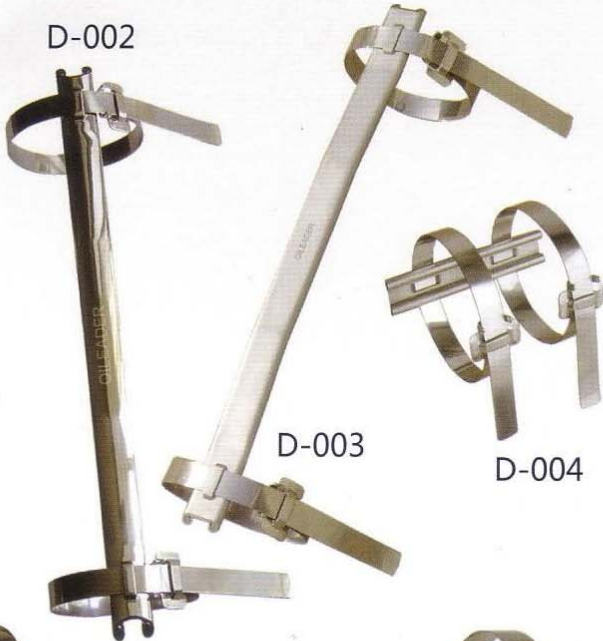

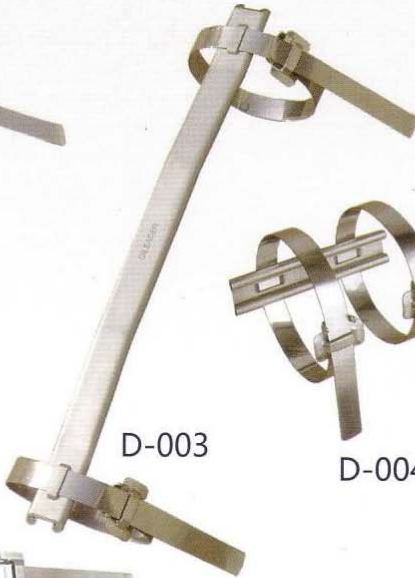

# Punching protector with SS straps

Punching protector is fixed and clamped by stainless steel straps, being compact, light and suitable for any tubing connection. Also, it is not restricted by the size of central space between casing and tubing. It could be easily and speedily installed on site with tight tool.
